

HEARING IMPAIRMENT

Think: Have you considered how you can make the most effective use of technology for learners? This includes the use of Roger Pen if applicable.

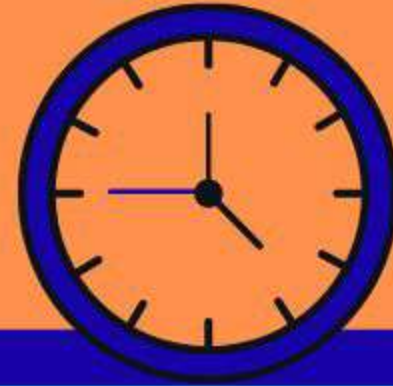

Strategy 1:

Seat the pupil where they will be clearly seen, at the front of the room and to the side.

Strategy 2:

Allow rest breaks- HI pupils tire easily!

Strategy 3:

Be aware of exam/access arrangements, including a live speaker for MFL.

Strategy 4:

Keep the noise level down.

Strategy 5:

Use subtitles on videos and notes alongside PowerPoints and keep the lights on during presentations.

Strategy 6:

Use visual cues and written instructions.
